

To Get Bibles from Zip state to C drive

Step 1

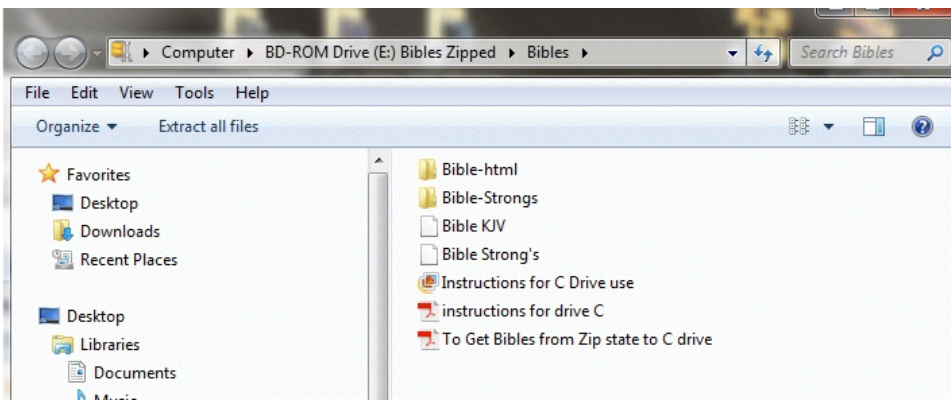

Step 2

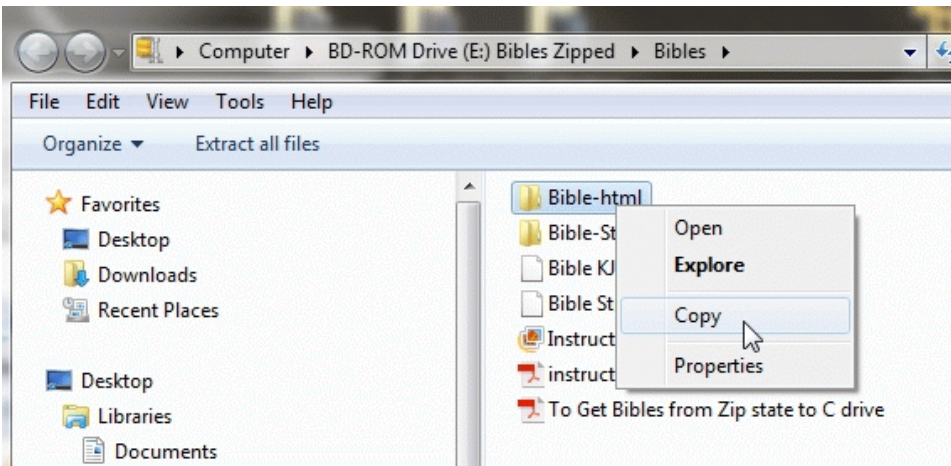

Step 3

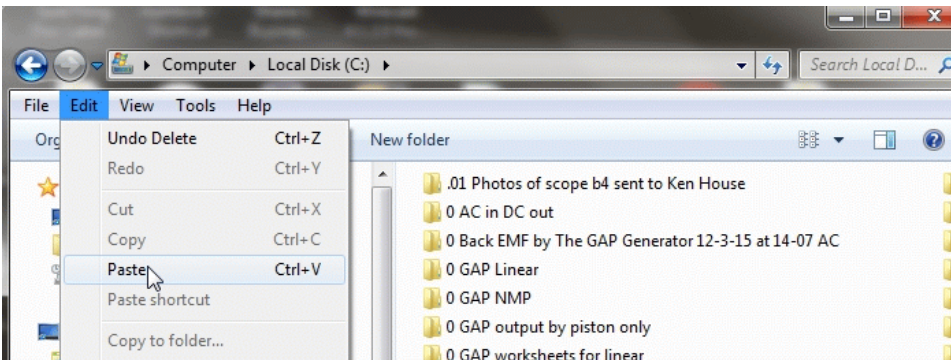

Windows Explorer will open the Zipped file and display its contents.

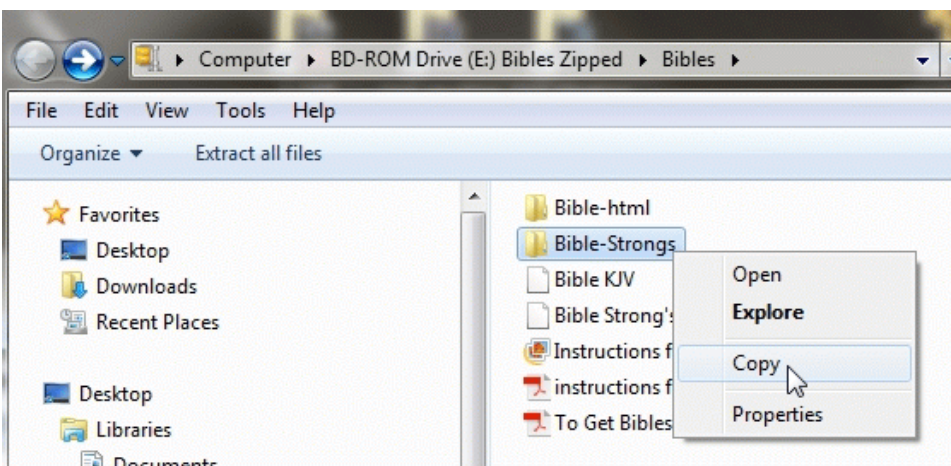

Step 4
Contents of the zipped file.

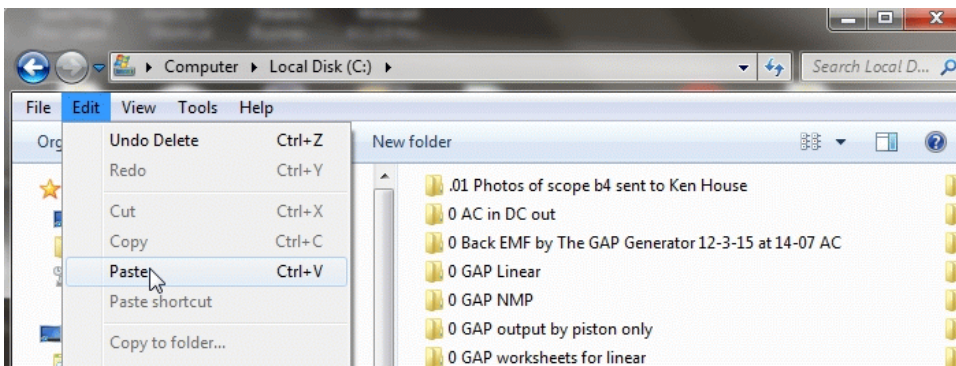

Step 5
Right click the Bible-html folder and select copy.

Step 6
Like in step 1, only double left click the mouse on Local Disk (C:). Left click the Edit column and select paste. This will put the Bible-html folder the root directory of C Drive.

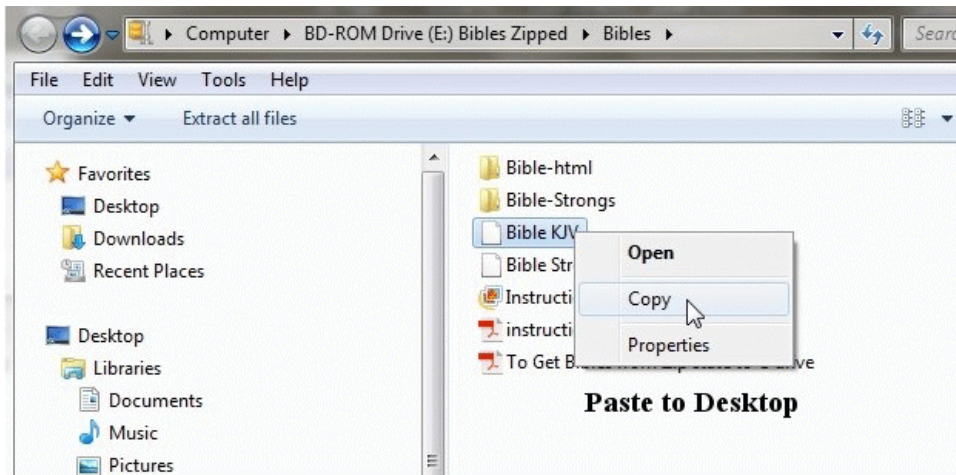

Step 7
Right click the Bible-Strongs folder and select copy..

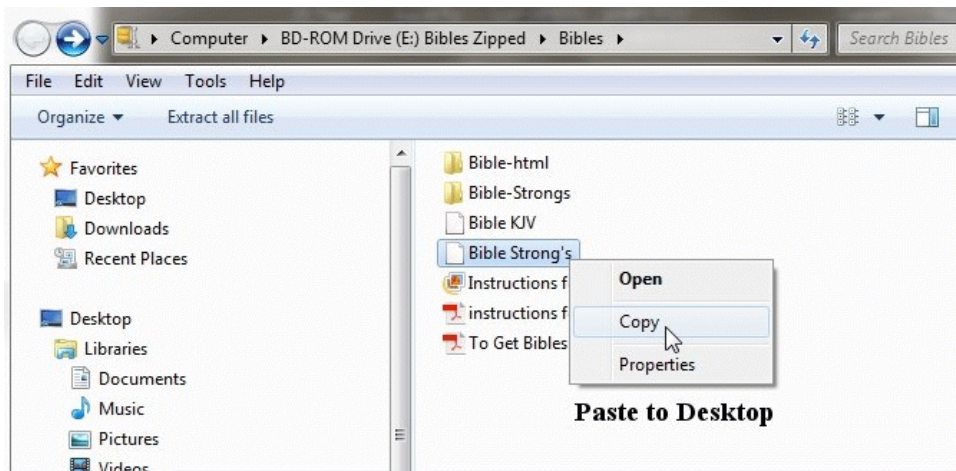

Step 8

Like in step 1, only double left click the mouse on Local Disk (C:). Left click the Edit column and select paste. This will put the Bible-Strongs folder the root directory of C Drive.

Step 9

Bible KJV is a shortcut. Right click on it and select copy. Move the mouse arrow onto the desktop, right click mouse, and select paste. This puts the shortcut on the computer's desktop screen.

Step 10

Bible Strong's, is a shortcut. Right click on it and select copy. Move the mouse arrow onto the desktop, right click mouse, and select paste. This puts the shortcut on the computer's desktop screen.

The installation is complete. Just click on one of the desktop shortcuts and start enjoying a new way of studying the Bible.
